

Medical Billing Self Audit

Can you affirmatively answer 'Yes' to each of these inquiries?

Yes No

Have you found any instances in the past two years where a commercial insurance company is underpaying you for your services based on your contract?

Are all your Medicare and Medicaid plans audited for underpayments?

Have you reviewed a detailed Adjustment and Write-off report and understand the categorization of all transactions?

Do you know how many timely filing adjustments you have?

Do you have a complete inventory of your contracts down to the plan level?

Is your contract inventory regularly compared against the contracts of all of your service locations?

What's Next?

If you answered NO to any of these questions or are unclear how to answer them, you should look for a new medical billing partner. Allow our medical billing specialists to review your most recent data to see how much service revenue is actually being lost.
